

LECTURE 5:

PERSONAL SKILL DEVELOPMENT PLAN

This lecture helped me understand the importance of developing my professional skills step by step. I learned that every student should identify their strengths and weaknesses before entering the workplace.

As a Software Engineering student, I need both technical skills and professional skills. Technical skills help me complete software tasks, while professional skills help me communicate, work in teams, manage time, and behave responsibly.

This lesson helped me think about my current skills and the areas I

• MY CURRENT SKILLS AND IMPROVEMENT AREAS •

MY STRENGTHS

-  Teamwork
-  Quick learning
-  Basic web development
-  Problem solving
-  Interest in technology
-  Willingness to improve

WHAT I UNDERSTOOD

I understood that professional development is a continuous process. I cannot improve everything in one day, but I can improve step by step with practice.

SKILLS I NEED TO IMPROVE

-  Communication skills
-  Presentation skills
-  Time management
-  Interview confidence
-  Leadership skills
-  Professional behaviour

• MY ACTION PLAN AND REFLECTION •

MY ACTION PLAN

-  Practice speaking clearly during presentations and viva.
-  Improve time management by planning assignments early.
-  Take part in group activities to improve teamwork.
-  Build confidence by preparing for interviews.
-  Improve leadership by taking responsibility in group tasks.
-  Continue learning technical skills through projects.

MY SELF-REFLECTION

- ✓ Before this lesson, I did not clearly think about my strengths and weaknesses.
- ✓ After this lesson, I understood that self-improvement is very important for a student. I learned that I should identify my weak areas and work on them step by step.
- ✓ This lesson helped me become more aware of my professional growth. It also encouraged me to prepare better for my internship, mock interview, viva, and future workplace.

CONCLUSION

Personal skill development is important because it helps me become confident, responsible, and ready for employment.

.....

This lesson helped me understand that professional success needs continuous learning, practice, and self-reflection.
